

CO-OP PROGRAM

A program for students to pursue paid professional internships during studies

About the program

The CO-OP program is implemented under the „Excellence initiative - research university" and provides a formula for cooperation between science and business enabling the best students to undertake professional work during their studies.

A program for the best students

Under the CO-OP program, the student applies for a job and goes through the recruitment process at UMK and with the employer, in which their competencies and the level of motivation to work in a given position is evaluated.

Job offers are made by the employers

The work can take many forms. It can mean involving the student in the processes or projects, or take the form of an individual project commissioned to the student by the employer.

The university provides you with the program promotion and recruitment

The Career Office is responsible for matching students to the expectations reported by employers. It provides students with career counseling and diagnoses their level of social competences skills. The outcome of the recruitment process is determined by the student's average of studies (minimum 4.0), the results of the interview and tests of professional predispositions.

Time to work professionally

A student can spend 3-5 months on professional work during the semester. The internship may be carried out during the period free from teaching classes. With gaining professional experience, the student acquires also the learning outcomes prescribed in the study program.

Salary

The amount of monthly salary is a minimum of 3400 PLN gross on a full-time basis.

Benefits

- valuable experience acquired while still during your studies,
- the opportunity to establish further (post internship) cooperation with the employer,
- opportunity to establish professional contacts

Benefits continuation

- possibility to count the internship towards mandatory student internships,
- internship salary,
- the opportunity to realize a certain pool of ECTS credits,
- a certificate of completion of the internship and references from the employer.
